

PREAMP INTERFACES

Multi-channel Receiver Interfaces

Preamp interfaces for variety of receiver coil applications. Superior SNR, high gain and excellent stability.

Specifications:

- Low Noise Figure (NF) preamps at 0.5 dB NF
- Gain 28 dB and upwards
- Isolation circuitry with -30 dB isolation for receiver interfaces and -60 dB isolation for T/R interfaces.
- Configurable to Philips Ingenia/Achieva, GE and Siemens MRI systems
